# UNIVERSAL SPORTS FESTIVAL 2024 in CHIBA

## ~ WHAT IS UNIVERSAL SPORTS ? ~

Have you ever given up doing something together with someone because of differences with them? For example, you may have experiences not being able to enjoy a sport because of differences in ability or experience, or you may have given up speaking with someone from a foreign country because of language barriers. BUT we can all have fun together despite our differences... In fact, there are sports that can be enjoyed because of differences. It is called "Universal Sports"!

It is a sport that everyone can enjoy together regardless of age, nationality, or disability.

Why don't you join a mixed team (7~8 people per team) with people you would not normally meet and have a fun day of mixing and mingling!
